DETAIL OF ACCREDITATION

| Materials/Products tested | Type of test/Properties measured/Range of measurement | Standard specifications/ Equipment/Techniques used |
|--|---|---|
| MICROBIOLOGICAL CULTURE MEDIA Ready to use or partially completed liquid or solid (agar) media, including diluents | Performance Testing of Physical and Microbiological parameters to support production quality <u>Physical Tests</u> pH Appearance (including pinheads, bubbles, extraneous matter, flecks) clarity and colour) Fill volume weight check Sterility | Documented in house methods based on: ISO 11133:2014, unless otherwise indicated ED/SOP/003 measurement by pH meter ED/SOP/009 by visual observation ED/SOP/054 by gravimetric determination ED/SOP/005 Visual check and growth assessment following incubation for 3 days at 15-25 °C and 37 °C |
| Ready to use or partially completed solid (agar) media in plates or bottles | Moisture | ED/SOP/053 using oven drying at 105 °C and gravimetric determination or Ohaus Moisture Analyser at 200 °C |
